BUILDING SUCCESSFUL EMPLOYEE NETWORKS

Overview

Employee networks are powerful drivers of inclusion and belonging within organisations. Yet they're often driven by passionate volunteers balancing this role with demanding day jobs, often in deeply personal spaces with limited access to training or support.

This programme delivers the practical tools and confidence your network members need to lead with impact, influence change, and help shape a more inclusive workplace.

The training covers

Governance – purpose, goals, membership criteria, funding, recognition of members' efforts and more

Influencing – your sponsor, other network groups, your allies and supporters and more

Team cohesion – coming together as an effective team that will leverage your strengths and get things done

Communication – considering your audience, methods, timing and content, and measuring your effectiveness

Wellbeing – looking after yourself, building your resilience, and supporting your network members
